

Too many remotes?
Too many buttons?

It CAN be this easy.

Simplify your home theater system with a customized universal remote!

"If you're in the market for a universal remote, you won't find one that gets you more for your money than the Harmony 880."

- PC World, April 2005

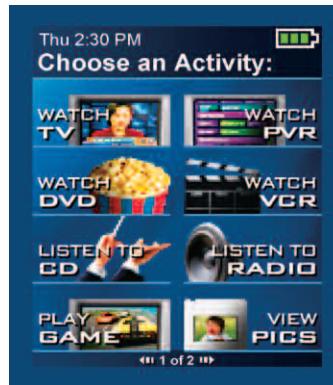

Features a rechargeable lithium ion battery and interactive guided step-by-step troubleshooting.

- Operate your entire system from a single remote. Control ANY device with an infrared receiver – even lighting or ceiling fans.
- One-button initiation of activities (such as "play DVD"), uniquely configured to your needs and preferences.

PLUS, we do the programming for you.

\$399 includes Harmony 880 remote and charging base with custom in-home setup/programming

Sample display panel. Actual display is configured for you during setup.
